

AstroTours.org Proposal for Secret Dreams Fest

Project Description:

AstroTours.org proposes to bring the cosmos to Secret Dreams Fest through an interactive astronomical experience titled "Cosmic Canvas: A Journey Through the Stars." Our setup will feature high-powered telescopes positioned in the serene outdoors of Legend Valley, offering attendees an intimate gaze into the celestial wonders. Our experienced astronomers will guide guests through the night's highlights, including constellations, planets, and on special nights, the moon's detailed craters and seas.

All-In Price:

The all-inclusive price for our 3-night astronomical experience, including equipment, personnel, and transportation, is \$2,000. This covers setup and takedown each night, guided stargazing sessions, and interactive Q&A with our astronomers.
